Grains in their natural form.
Nutrition true to the ingredient.

Research into minimal processing helps preserve
as much of the original shape and nutrition as possible.

Making hard-to-prepare grains easy to enjoy

Grain-Care™ Technology

Personalized grain meals with automated recommendations and their manufacturing method
Patent application 10-2025-0083072 | IPC G16H 20/60 | Priority examination pending

What is Grain-Care™ technology?

Grain-Care™ combines soaking tailored to grain size and firmness with high-temperature, high-pressure cooking expertise developed over years. It preserves the grains' original form while enabling ambient storage without preservatives.

For rice, salads, yogurt and poke bowls.
Whenever you want grains, just open and add.

For your
everyday
meals

Add a
touch of
inspiration

No soaking or boiling. Open and enjoy.
Just water and grains. 8 months of ambient storage.

No preservatives or food additives.
Ingredients: grains and purified water. Nothing else.

1. Choose

Pick the Grain TokTok that suits your meal.

2. Add

No cooking needed. Simply open and pour.

3. Mix

Mix it into your meal just the way you like.

On Its Own

Enjoy grains instead of white rice for a satisfying, nutritious meal.

With Your Meal

At work or dining out, add balance wherever you eat.

As a Snack

A quick, nutritious snack when you need a little something.

- 01

Chickpeas with a chestnut-like flavor

A rich source of plant protein, chickpeas provide dietary fiber that supports gut health. Their low glycemic index (GI) also helps with dietary management.
- 02

Oats: the king of grains

Beta-glucan helps manage blood sugar and cholesterol, while antioxidant polyphenols help combat aging and support vitality.

*This describes the raw ingredients to aid understanding, not the effects of the finished product.

01 The power of Seoritae black soybeans
Rich in anthocyanins, Seoritae black soybeans help combat aging and prevent hair loss. High-quality plant protein supports muscle health and an active daily life.

02 Lentils: small but mighty
With about ten times the dietary fiber of bananas, lentils support gut health. Their folate and iron help promote circulation and strengthen immunity.

*This describes the raw ingredients to aid understanding, not the effects of the finished product.

01

Farro: a leading low-sugar grain

Low in sugar and rich in fiber and resistant starch, farro helps manage blood sugar. Its abundant polyphenols provide light, healthy energy.

02

Fava beans: a high-protein choice

Rich in alpha compounds described as 'natural insulin,' fava beans help stimulate metabolism. Their plant protein supports muscle maintenance and weight management.

*This describes the raw ingredients to aid understanding, not the effects of the finished product.

01 Khorasan wheat: king of ancient grains
Rich in the antioxidant nutrient selenium, khorasan wheat helps combat aging. Its dietary fiber helps limit sharp rises in blood sugar and supports a healthy diet.

02 Farro: a leading low-sugar grain
Low in sugar and rich in fiber and resistant starch, farro helps manage blood sugar. Its abundant polyphenols provide light, healthy energy.

*This describes the raw ingredients to aid understanding, not the effects of the finished product.

Today's Grains, Your Ideal Life | GOKMUL:ONE

Integrity you can trust. GOKMUL:ONE.

All products are made in Korea,
with every stage managed locally.

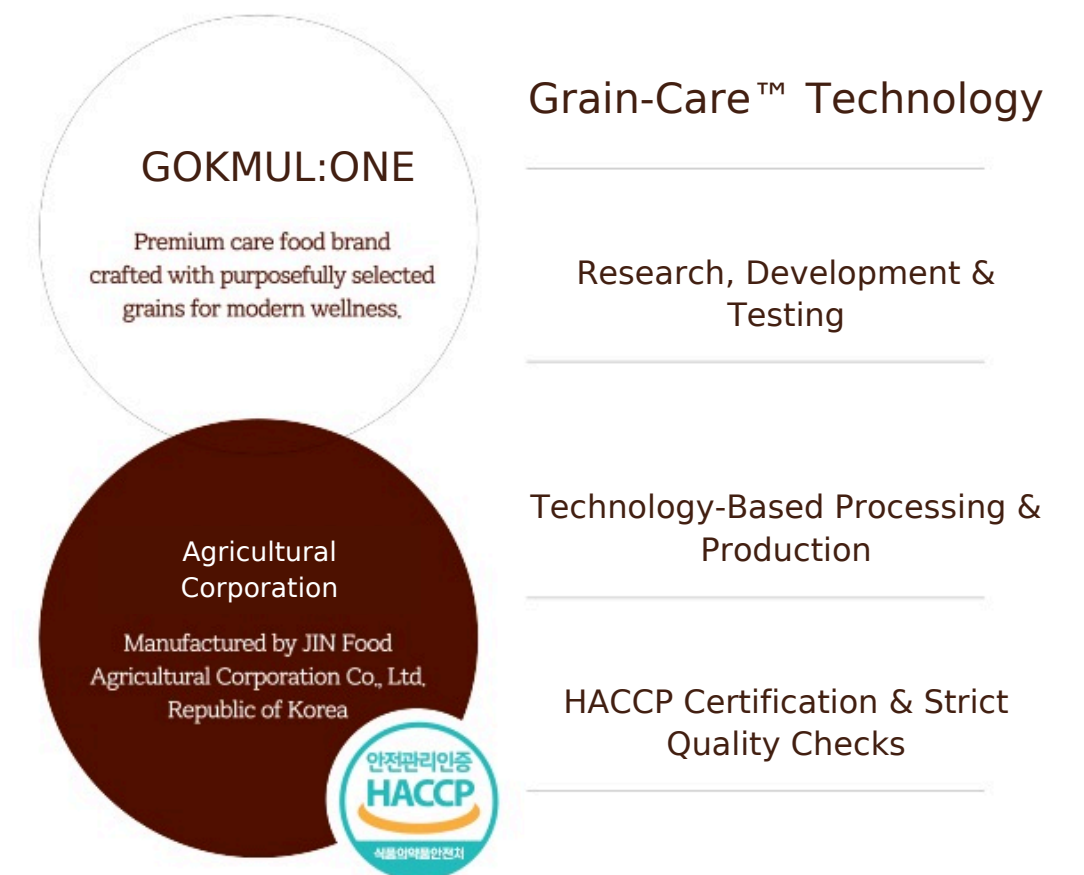

We use Korean-grown oats and Seoritae black soybeans,
with transparent information on ingredient origins.

Trusted ingredients and a reliable management system
create grains you can enjoy with confidence.

Distinctive technology. Consistent grain blends.

Carefully timed cooking brings each grain to its best flavor
and a pleasantly chewy texture that is easy to enjoy.

Years of testing have shaped
GOKMUL:ONE's distinctive grain-blending recipes.

Today's Grains, Your Ideal Life | GOKMUL:ONE

Meal Essence Grain TokTok

The meal satisfaction of whole grains, with the convenience of a protein shake.

Conventional meal replacements can be 'filling but time-consuming' or 'convenient but not satisfying enough.' GOKMUL:ONE combines the satisfaction of a meal you can chew with ready-to-eat convenience.

A new grain-based care food that delivers both the role of a meal and everyday ease.
